ChengLi Special Automobile Co.,Ltd, which is appointed by the Ministry of Industry and Information Technology of China, is a big manufacturer producing all kinds of special trucks. It is famous for special trucks for virescence, entironment cleanness, oil, chemical industry and pressure vessel. It has registered trademark "CHENGLIWEI" and products code:CLW. Our company cooperates with famous chassis manufacturers, such as DONGFENG, FAW, SINO TRUCK, ISUZU, FOTON, JAC, JMC and etc. Our main business include producing special trucks and selling chassis, trucks and trucks' spare parts. Our company has independent export potence, and has a mount of clients overseas. Our leading productions include more than 300 types of trucks such as Water truck, Fecal suction truck, Sewage suction truck, Garbage truck, Road sweeper, Fuel tank truck, High-altitude operation truck, Truck with crane, Dump truck, Semi-trailer, Fire fighting truck, Van truck, Prime mover, Chemical liquid truck, Bulk cement truck, Concrete mixer truck, Wrecker truck, Pressure vessel, ect. Our company has solid technology, flawless inspection, advanced equipments, reliant quality and flexible modes of operation. What's more, it has roundly passed the certification of ISO9001-2008, the 3C(China Compulsory Certification) and other certifications that export needed. Chengli trucks have always taken the top place in Chinese market in recent years. ChengLi have procured remarkable achievements interiorly and oversea, specially since our boss invested in building new big morden industry zone in south subrub development area of Suizhou city. This ares is named after Chengli Automobile Industry Park. Chengli company became a big star in trucks trade in the middle of China.

Our survival what is based on the quality and credit standing is the guarantee of our success. We will do as we can that treating customers honestly, marketing flexibly, guaranteeing high quality and reasonable price, and concentrating on high efficiency.

We promise that all the products sold by us can get "three guarantees" for one year and enjoy maintenance and free technology service for life. After service can be dealt within 48 hours. ChengLi Special Automobile Co.,Ltd is located in Suizhou, the native place of ShenNong, the hometown of BianZhong and the City of Special Truck. It is 186 kilometres away from WuHan and 330 kilometres away from Three Gorges, and the traffic is very convenient. Cheng Aluo, who is the general manager of our company warmly welcome new and old friends to visit our company. And we can delivery the trucks to you basing on a valid fax or after receiving advance payment. If you fetch the trucks, we can help you to finish all the offeral procecdure.

product manual:

Aerial work vehicles with telescopic arm can be reach to 22 meters. Widely used in municipal, electricity, street lamps, advertising, communications, photography, gardens, shipbuilding, transportation, terminals, airport ports, rescue, large industrial and mining enterprises and other industries installation and maintenance operations.

The conventional operating height of ladder carrier truck can reach to 28 meters, 38 meters, 45 meters, the chassis is using DFAC double row and JAC double row two types. It can be equipped with wireless remote control, the dimension of release cargo body is 2.1m * 1.5m, you can put a larger volume of cargos. It mainly used for cargo transshipment, ship maintenance, moving company, cement and sand handling of project leasing, curtain wall construction, roof solar energy, roof waterproofing operations. It can register blue license, C license can drive.

Scissor vertical lift aerial work vehicles, is using DFAC double row and JAC double row these two chassis, there are three models of operating height, which is 6 meters, 8 meters, 10 meters. It suitable for landscaping, pruning branches, street lamp maintenance, etc., It can also be used for high-altitude equipment installation, maintenance, decoration, workshop, goods delivery up and down on shelf of warehouse, production lines, special equipment, cargo delivery between different height and cargo handling operations. It can register blue license, C license can drive.
